THE CORONA CRISIS 2020

The current crisis is not easy for all of us. We have to stay home all the time, we have no more rights to go to school, to shopping malls or to meet friends at parties.

I would like you to comment on the current situation (100-120 words). Please answer the following

questions in your comment:

- 1) **How do you feel about the current crisis?**
- 2) **What are the things or activities that you cannot do anymore these days?**
- 3) **What do you do to feel as good with the situation as possible? What advice can you give to others?**
- 4) **How seriously are you taking the government's recommendations?**

Please make sure you use time adverbials, linking words, adverbs and adjectives.

Mögliche Lösungen:

NIVEAU 1:

I don't feel very easy about the current situation.

I can't go outside and play football with my friends. Also, I can't go to the nearby shopping mall.

Instead I'm playing video games all the time or I'm helping my mum in the house.

Of course, I do as the government tells us and I stay home most of the time.

NIVEAU 2:

I don't feel very easy about the current situation because it really sucks that I must stay home around the clock.

I can't go outside and play football with my best friends. Nor can I meet them at the nearby shopping mall. Before the crisis we met almost every day after school and at the weekends.

Instead of going out often I'm playing video games 24/7 or I'm helping mum in the house. I mean, I like playing videos games but it's nothing special now that you can do it all the time. Helping my mum feels really good though.

The government says that everyone should stay home as much as possible. I think this is right. I also obey and go outside only when it's necessary. For example, I must walk my dog four times a day. These are the only times I leave the house.

NIVEAU 3:

I don't feel very easy about the current situation because it really sucks that I must stay home around the clock. Also, my parents and most of my friends go crazy because they can't easily go wherever they usually go.

I can't go outside and play football with my best friends. Nor can I meet them at the nearby shopping mall. Before the crisis we met almost every day after school and at the weekends. I hope the situation will get better soon so I can see my friends and go back to school again.

Helping my mum feels really good though. Everyone should help their parents these days because it definitely helps to get through the crisis quickly.

We really need to slow down the virus. If nobody did as the government tells us the virus would spread drastically and way too many people would get sick. Plus, there aren't so many beds in our hospitals. So please STAY HOME!
